## Now Playing screen

The Now Playing screen displays information about the audio that is currently playing in the selected room, playback progress, playback controls, options for viewing the queue, and so on.

Last browsed

Tap  or swipe down on the Now Playing screen to view the last place you browsed. The collapsed Now Playing screen appears at the bottom of the screen. Touch it or swipe up to return to the full-screen view.

Sonos music menu

Touch  to browse or select music, and access favorites and playlists. Touch again to close the menu.

Rooms

Touch  to select a room to play music in, to view the music selections playing in each room, or to create or modify room groups to play the same music throughout your house. For example, touch .

Search

Tap  to search across all of your music sources at once to find the music you love. You can search by artist, track, album, and so on. You can search by entering text, or by using the voice recognition feature on your iPhone. For information on searching, see [Searching - iPhone](#).

Info & Options

Touch the Info & Options area on the Now Playing screen to display the crossfade and sleep timer controls as well as additional options, such as adding a track to your Sonos Favorites or viewing artist/album information. The options that appear depend on the music source you have selected.

For information on the Sleep Timer option, see [Clock and Alarms - iPhone](#).

Queue

Touch  to display the tracks in the current queue, the shuffle and repeat controls, and options for managing the queue.

For information on managing the queue, see [Managing the Music Queue - iPhone](#).

Back

Touch  to return to the previous screen.
